

Gui::DockPanel::DockPanel

Gui::StackPanel::StackPanel

Gui::Panel::setDimensions

```
graph LR; A[Gui::DockPanel::DockPanel] --> C[Gui::Panel::setDimensions]; B[Gui::StackPanel::StackPanel] --> C;
```

The diagram illustrates a shared dependency between two classes and a common method. On the left, two white rectangular boxes represent the constructors: 'Gui::DockPanel::DockPanel' (top) and 'Gui::StackPanel::StackPanel' (bottom). On the right, a gray rectangular box represents the method 'Gui::Panel::setDimensions'. Two blue arrows point from the right side of each constructor box to the left side of the method box, indicating that both constructors utilize this shared method.
